CHECKLIST

Anonymous Notes

Build the following wireframe as a full MEAN project. Before starting, consider the layout, and in reside. With this application, we allow any user to come to our website and add a note. We also the 'new note' form, with the most recent notes at the top of the list.

Landing Page

http://localhost:1337

Anonymous Notes

Note:

The new coffee shop has really good cold brew!

Noted on: Jun 1, 20

10,000 hours to mastery, we get over 1,500 hours of Coding experience at Coding Dojo in less than Think about it.

Noted on: May 23, 20

Programming makes the day go by so fast, and it's so much fun!

Noted on: May 23, 20

- The note should be a mini
- Add Note should store the Database.
- The note list should be upc soon as we add a new note
- Each note should include th when it was created.
- Date format should be as 6:11:58 AM
